Camellia

The camellia is one of the most beautiful of all tropical flowers, and is by far the most common. It is a tree or shrub, with a good well-developed root system, and a large, spreading, glossy green foliage. In most soils, especially clay soils, cotton seed meal (100 lbs) will make a fertilizer. Other good fertilizers with an acid reaction (iron, etc.) will produce similar results. The following are the varieties of camellia.

<u>Camellia JAPONICA</u>	<u>Color</u>	<u>Flowering</u>	<u>Height</u>
<u>Andromeda</u>	Deep Pink	Large, Full Double	2-3
<u>C. N. Meyer</u>	Red, Bloched White	Large, Semi-double	2-3
<u>Fanny Hollis</u>	Red	Semi-double, Very Hardy	2-3
<u>Jasmin Red</u>	Red		2-3
<u>Prof. Dr. Sargent</u>	Dark	Very thick, many-branched	2-3
<u>Sally Frost</u>	Pink to Red	Prolific Bloomer	2-3
<u>Wickham White</u>	White		2-3
<u>Camellia SASAKI</u>

Guarantee

Nursery Stock not planted by us is guaranteed to be true to name, up to grade and in good condition when it leaves the Nursery. We will replace without charge any plant proved otherwise, provided it is reported promptly.

Planting of our material is guaranteed provided work is done by us. Guarantee is for one growing season or approximately six months.

Material NOT Guaranteed. Lawn work is not guaranteed. Seeding and sodding depend for survival on the care they receive after our work is completed. Material planted in boxes, urns, or in locations where normal conditions can not exist except as provided by you is not covered by our guarantee.

Complaints if any should be made in writing. Phone calls will not suffice. We suggest that you retain your sales slip to substantiate any claim you may wish to make under our guarantee.

Terms are cash unless otherwise arranged. Applications for credit should be submitted in writing. Ask our sales personnel for a Credit Application Form.
